

Build a Healthier Campus Community

The GOJO Programme for Higher Education

- Performance suffers when illness affects students' class attendance, their ability to study, focus and do their best.
- Hand hygiene is one of the most important steps in preventing illness and stopping the spread of germs to others.

**Health is essential to learning.
Hand hygiene plays a vital role in the learning community.**

GOJO offers well being solutions for hygiene and healthy skin.

- As busy students move between halls and classrooms to dining areas and other shared facilities, they spread germs hand-to-hand and to objects they share.
- Access to hand hygiene solutions at touch-points campus-wide will help stop the spread of infections.
- Show your commitment to a healthier learning environment by placing GOJO products throughout campus.
- PURELL® Advanced Hygienic Hand Rub kills more than 99.99% of most common germs that may be harmful.

For European Markets Only

GOJO LTX™ and ADX™ Dispensing Systems

- Available in 700ml or 1200ml / 1250ml
- Robust Design, engineered to perform
